This area has been marked as overland flow and that has increased my insurance over 100%. Overland flow is an ongoing problem. The infrastucture in this area cannot take any water overload due already to increased housing and flats. It gushes down Stephens road and out of driveways and down streets flooding roads and lanes. It cannot get away, and then flows into properties at the lower half of the street.
The parking is a nightmare. Those who now park at the back of 37 Brook St., will now be delgated to the streets. And of course, take into consideration, the streets are at the back of Somerville house, clogged with the many sports events and the close vicinity of South Bank for family outings over the weekends.
