.....

To whom it may concern,

We are in support of this application as we love to visit Koorringal and support the local businesses, but there is little accommodation options. We are no longer at the age where camping is an option for us and would like a more comfortable option. The Umpys Humpy provides that option, it enables us to explore the islands beautiful surroundings and support the local businesses. we are always respectful of the neighbouring properties. Please keep this accommodation as an option for non campers to the island.

Thank you
