

Submission ref A007025301, 71 Eleanor Street Carina

Attention: Nicholas Cudicio

The proposed subdivision is a practical opportunity to add another home in an established and well-serviced area. Increasing the supply of housing in locations with existing transport, shops, schools and services is a sensible way to support housing choice and affordability. I strongly support this practical infill subdivision and encourage Council to do its part in increasing housing supply by approving the application.

Yours sincerely,

....
