

OPPOSE

I am hoping at their has been an extension on the decision in this matter that my feedback could still be submitted.

As a resident of the area we are already heavily impacted by congestion in Hope st and also Telegraph due to the Mosque.

Adding an additional 38 properties would be catastrophic. There are concerns for all the children who play in the street or use it to walk to and from school.

Privacy will be non-existent. Noise will increase.

Maybe a new park or some walking tracks would be better.
