Message to Council:	<p>I looked for the community feedback for the development application A006774687, was unable to find. I read with interest that there were concerns about the proposed design &amp; " whether it aligns with the areas character ". As the area now has multistory buildings &amp; numerous modern designed homes I don't see how this is out of " character ". There is no character any more. As the building will be at the very back of the park &amp; on the waterfront it won't impact at all except with those who continue to moan about changing " character. " Please don't allow it to be painted black or grey as that doesn't fit with the park or the sea. There are far to many of that colour now. I have lived in the area since 1992, worked locally ince 1983 &amp; applaude the changes happening. T h &amp; fits with the sea it fronts. Thank you</p>
