This email originates from outside of Brisbane City Council.

I'm a resident of hope street do not put a road threw there it is a congested nightmare as it is without you putting more houses in a area that has 1 road in and 1 road out
The people of hope street have a lot of small children on the street aswell
Do you think it is safe opening up the road on the back of the street for more traffic to go through?
A street that is already congested?
A whole area that has 1 road in and out?
I could easily get the majority of the street maybe the whole of hope street to agree that what your planning is unsafe a congestion nightmare
