

State code 1: Development in a state-controlled road environment

Table 1.1 Development in general

Performance outcomes	Acceptable outcomes	Response
Buildings, structures, infrastructure, services and utilities		
PO1 The location of the development does not create a safety hazard for users of the state-controlled road .	AO1.1 Development is not located in a state-controlled road . AND AO1.2 Development can be maintained without requiring access to a state-controlled road .	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. The access easements are not located in the state-controlled road and can be maintained without requiring access to the state-controlled road.
PO2 The design and construction of the development does not adversely impact the structural integrity or physical condition of the state-controlled road or road transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO3 The location of the development does not obstruct road transport infrastructure or adversely impact the operating performance of the state-controlled road .	No acceptable outcome is prescribed.	Complies. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO4 The location, placement, design and operation of advertising devices, visible from the state-controlled road , do not create a safety hazard for users of the state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. Advertising devices are not proposed as part of the application.
PO5 The design and construction of buildings and structures does not create a safety hazard by distracting users of the state-controlled road .	AO5.1 Facades of buildings and structures fronting the state-controlled road are made of non-reflective materials.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. No

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
	<p>AND</p> <p>A05.2 Facades of buildings and structures do not direct or reflect point light sources into the face of oncoming traffic on the state-controlled road.</p> <p>AND</p> <p>A05.3 External lighting of buildings and structures is not directed into the face of oncoming traffic on the state-controlled road.</p> <p>AND</p> <p>A05.4 External lighting of buildings and structures does not involve flashing or laser lights.</p>	<p>change to the approved building facades and structures are proposed as part of the development.</p>
<p>PO6 Road, pedestrian and bikeway bridges over a state-controlled road are designed and constructed to prevent projectiles from being thrown onto the state-controlled road.</p>	<p>A06.1 Road, pedestrian and bikeway bridges over the state-controlled road include throw protection screens in accordance with section 4.11 of the Design Criteria for Bridges and Other Structures Manual, Department of Transport and Main Roads, 2020.</p>	<p>Not Applicable. The proposed change relates to the incorporation of access easements only.</p>
Landscaping		
<p>PO7 The location of landscaping does not create a safety hazard for users of the state-controlled road.</p>	<p>A07.1 Landscaping is not located in a state-controlled road.</p> <p>AND</p> <p>A07.2 Landscaping can be maintained without requiring access to a state-controlled road.</p> <p>AND</p>	<p>Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. Landscaping is not proposed.</p>

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
	AO7.3 Landscaping does not block or obscure the sight lines for vehicular access to a state-controlled road .	
Stormwater and overland flow		
PO8 Stormwater run-off or overland flow from the development site does not create or exacerbate a safety hazard for users of the state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. No changes are proposed to stormwater management arrangements.
PO9 Stormwater run-off or overland flow from the development site does not result in a material worsening of the operating performance of the state-controlled road or road transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. No changes are proposed to stormwater management arrangements.
PO10 Stormwater run-off or overland flow from the development site does not adversely impact the structural integrity or physical condition of the state-controlled road or road transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. No changes are proposed to stormwater management arrangements.
PO11 Development ensures that stormwater is lawfully discharged.	AO11.1 Development does not create any new points of discharge to a state-controlled road . AND AO11.2 Development does not concentrate flows to a state-controlled road . AND	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. No changes are proposed to stormwater management arrangements.

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
	<p>AO11.3 Stormwater run-off is discharged to a lawful point of discharge.</p> <p>AND</p> <p>AO11.4 Development does not worsen the condition of an existing lawful point of discharge to the state-controlled road.</p>	
Flooding		
<p>PO12 Development does not result in a material worsening of flooding impacts within a state-controlled road.</p>	<p>AO12.1 For all flood events up to 1% annual exceedance probability, development results in negligible impacts (within +/- 10mm) to existing flood levels within a state-controlled road.</p> <p>AND</p> <p>AO12.2 For all flood events up to 1% annual exceedance probability, development results in negligible impacts (up to a 10% increase) to existing peak velocities within a state-controlled road.</p> <p>AND</p> <p>AO12.3 For all flood events up to 1% annual exceedance probability, development results in negligible impacts (up to a 10% increase) to existing time of submergence of a state-controlled road.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.</p>
Drainage Infrastructure		
<p>PO13 Drainage infrastructure does not create a safety hazard for users in the state-controlled road.</p>	<p>AO13.1 Drainage infrastructure is wholly contained within the development site, except at the lawful point of discharge.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only which are to be created over previously</p>

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
	AND AO13.2 Drainage infrastructure can be maintained without requiring access to a state-controlled road .	approved/constructed driveways and access crossovers. No changes are proposed to stormwater management arrangements.
PO14 Drainage infrastructure associated with, or within, a state-controlled road is constructed, and designed to ensure the structural integrity and physical condition of existing drainage infrastructure and the surrounding drainage network.	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers. No changes are proposed to stormwater management arrangements.

Table 1.2 Vehicular access, road layout and local roads

Performance outcomes	Acceptable outcomes	Response
Vehicular access to a state-controlled road or within 100 metres of a state-controlled road intersection		
PO15 The location, design and operation of a new or changed access to a state-controlled road does not compromise the safety of users of the state-controlled road .	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO16 The location, design and operation of a new or changed access does not adversely impact the functional requirements of the state-controlled road .	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO17 The location, design and operation of a new or changed access is consistent with the future intent of the state-controlled road .	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO18 New or changed access is consistent with the access for the relevant limited access road policy :	No acceptable outcome is prescribed.	Complies

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
1. LAR 1 where direct access is prohibited; or 2. LAR 2 where access may be permitted, subject to assessment.		The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO19 New or changed access to a local road within 100 metres of an intersection with a state-controlled road does not compromise the safety of users of the state-controlled road .	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO20 New or changed access to a local road within 100 metres of an intersection with a state-controlled road does not adversely impact on the operating performance of the intersection.	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
Public passenger transport and active transport		
PO21 Development does not compromise the safety of users of public passenger transport infrastructure, public passenger services and active transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO22 Development maintains the ability for people to access public passenger transport infrastructure, public passenger services and active transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO23 Development does not adversely impact the operating performance of public passenger transport infrastructure, public passenger services and active transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO24 Development does not adversely impact the structural integrity or physical condition of public	No acceptable outcome is prescribed.	Not Applicable.

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
passenger transport infrastructure and active transport infrastructure.		The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.

Table 1.3 Network impacts

Performance outcomes	Acceptable outcomes	Response
PO25 Development does not compromise the safety of users of the state-controlled road network.	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO26 Development ensures no net worsening of the operating performance of the state-controlled road network.	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO27 Traffic movements are not directed onto a state-controlled road where they can be accommodated on the local road network.	No acceptable outcome is prescribed.	Not Applicable The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO28 Development involving haulage exceeding 10,000 tonnes per year does not adversely impact the pavement of a state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO29 Development does not impede delivery of planned upgrades of state-controlled roads .	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
PO30 Development does not impede delivery of corridor improvements located entirely within the state-controlled road corridor .	No acceptable outcome is prescribed.	Complies The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.

Table 1.4 Filling, excavation, building foundations and retaining structures

Performance outcomes	Acceptable outcomes	Response
PO31 Development does not create a safety hazard for users of the state-controlled road or road transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO32 Development does not adversely impact the operating performance of the state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO33 Development does not undermine, damage or cause subsidence of a state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO34 Development does not cause ground water disturbance in a state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.
PO35 Excavation, boring, piling, blasting and fill compaction do not adversely impact the physical condition or structural integrity of a state-controlled road or road transport infrastructure .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
		previously approved/constructed driveways and access crossovers.
PO36 Filling and excavation associated with the construction of new or changed access do not compromise the operation or capacity of existing drainage infrastructure for a state-controlled road .	No acceptable outcome is prescribed.	Not Applicable. The proposed change relates to the incorporation of access easements only which are to be created over previously approved/constructed driveways and access crossovers.

Table 1.5 Environmental emissions

Statutory note: Where a **state-controlled road** is co-located in the same transport corridor as a railway, the development should instead comply with Environmental emissions in State code 2: Development in a railway environment.

Performance outcomes	Acceptable outcomes	Response
Reconfiguring a lot		
Involving the creation of 5 or fewer new residential lots adjacent to a state-controlled road or type 1 multi-modal corridor		
PO37 Development minimises free field noise intrusion from a state-controlled road .	AO37.1 Development provides a noise barrier or earth mound which is designed, sited and constructed: 1. to achieve the maximum free field acoustic levels in reference table 2 (item 2.1); 2. in accordance with: a. Chapter 7 integrated noise barrier design of the Transport Noise Management Code of Practice: Volume 1 (Road Traffic Noise), Department of Transport and Main Roads, 2013; b. Technical Specification-MRTS15 Noise Fences, Transport and Main Roads, 2019; c. Technical Specification-MRTS04 General Earthworks, Transport and Main Roads, 2020. OR	Not Applicable. The proposed change relates to the incorporation of access easements only. No residential lots are proposed as part of the change.

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
	<p>AO37.2 Development achieves the maximum free field acoustic levels in reference table 2 (item 2.1) by alternative noise attenuation measures where it is not practical to provide a noise barrier or earth mound.</p> <p>OR</p> <p>AO37.3 Development provides a solid gap-free fence or other solid gap-free structure along the full extent of the boundary closest to the state-controlled road.</p>	
Involving the creation of 6 or more new residential lots adjacent to a state-controlled road or type 1 multi-modal corridor		
<p>PO38 Reconfiguring a lot minimises free field noise intrusion from a state-controlled road.</p>	<p>AO38.1 Development provides noise barrier or earth mound which is designed, sited and constructed: to achieve the maximum free field acoustic levels in reference table 2 (item 2.1); in accordance with: Chapter 7 integrated noise barrier design of the Transport Noise Management Code of Practice: Volume 1 (Road Traffic Noise), Department of Transport and Main Roads, 2013; Technical Specification-MRTS15 Noise Fences, Transport and Main Roads, 2019; Technical Specification-MRTS04 General Earthworks, Transport and Main Roads, 2020.</p>	<p>Not Applicable The proposed change relates to the incorporation of access easements only. No residential lots are proposed as part of the change.</p>

Performance outcomes	Acceptable outcomes	Response
	<p>OR</p> <p>AO38.2 Development achieves the maximum free field acoustic levels in reference table 2 (item 2.1) by alternative noise attenuation measures where it is not practical to provide a noise barrier or earth mound.</p>	
Material change of use (accommodation activity)		
Ground floor level requirements adjacent to a state-controlled road or type 1 multi-modal corridor		
<p>PO39 Development minimises noise intrusion from a state-controlled road in private open space.</p>	<p>AO39.1 Development provides a noise barrier or earth mound which is designed, sited and constructed:</p> <ol style="list-style-type: none"> 1. to achieve the maximum free field acoustic levels in reference table 2 (item 2.2) for private open space at the ground floor level; 2. in accordance with: <ol style="list-style-type: none"> a. Chapter 7 integrated noise barrier design of the Transport Noise Management Code of Practice: Volume 1 (Road Traffic Noise), Department of Transport and Main Roads, 2013; b. Technical Specification-MRTS15 Noise Fences, Transport and Main Roads, 2019; c. Technical Specification-MRTS04 General Earthworks, Transport and Main Roads, 2020. <p>OR</p> <p>AO39.2 Development achieves the maximum free field acoustic level in reference table 2 (item 2.2) for private open space by alternative noise attenuation measures where it is not practical to provide a noise barrier or earth mound.</p>	<p>Not Applicable</p> <p>The proposed change relates to the incorporation of access easements only. No accommodation activities are proposed as part of the change.</p>

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
<p>PO40 Development (excluding a relevant residential building or relocated building) minimises noise intrusion from a state-controlled road in habitable rooms at the facade.</p>	<p>AO40.1 Development (excluding a relevant residential building or relocated building) provides a noise barrier or earth mound which is designed, sited and constructed:</p> <ol style="list-style-type: none"> 1. to achieve the maximum building façade acoustic level in reference table 1 (item 1.1) for habitable rooms; 2. in accordance with: <ol style="list-style-type: none"> a. Chapter 7 integrated noise barrier design of the Transport Noise Management Code of Practice: Volume 1 (Road Traffic Noise), Department of Transport and Main Roads, 2013; b. Technical Specification-MRTS15 Noise Fences, Transport and Main Roads, 2019; c. Technical Specification-MRTS04 General Earthworks, Transport and Main Roads, 2020. <p>OR</p> <p>AO40.2 Development (excluding a relevant residential building or relocated building) achieves the maximum building façade acoustic level in reference table 1 (item 1.1) for habitable rooms by alternative noise attenuation measures where it is not practical to provide a noise barrier or earth mound.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>
<p>PO41 Habitable rooms (excluding a relevant residential building or relocated building) are designed and constructed using materials to achieve the maximum internal acoustic level in reference table 3 (item 3.1).</p>	<p>No acceptable outcome is provided.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change</p>
<p>Above ground floor level requirements (accommodation activity) adjacent to a state-controlled road or type 1 multi-modal corridor</p>		

Performance outcomes	Acceptable outcomes	Response
<p>PO42 Balconies, podiums, and roof decks include:</p> <ol style="list-style-type: none"> 1. a continuous solid gap-free structure or balustrade (excluding gaps required for drainage purposes to comply with the Building Code of Australia); 2. highly acoustically absorbent material treatment for the total area of the soffit above balconies, podiums, and roof decks. 	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change</p>
<p>PO43 Habitable rooms (excluding a relevant residential building or relocated building) are designed and constructed using materials to achieve the maximum internal acoustic level in reference table 3 (item 3.1).</p>	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change</p>
Material change of use (other uses)		
Ground floor level requirements (childcare centre, educational establishment, hospital) adjacent to a state-controlled road or type 1 multi-modal corridor		
<p>PO44 Development:</p> <ol style="list-style-type: none"> 1. provides a noise barrier or earth mound that is designed, sited and constructed: <ol style="list-style-type: none"> a. to achieve the maximum free field acoustic level in reference table 2 (item 2.3) for all outdoor education areas and outdoor play areas; b. in accordance with: <ol style="list-style-type: none"> i. Chapter 7 integrated noise barrier design of the Transport Noise Management Code of Practice: Volume 1 (Road Traffic Noise), Department of Transport and Main Roads, 2013; ii. Technical Specification-MRTS15 Noise Fences, Transport and Main Roads, 2019; iii. Technical Specification-MRTS04 General Earthworks, Transport and Main Roads, 2020; or 	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change</p>

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
2. achieves the maximum free field acoustic level in reference table 2 (item 2.3) for all outdoor education areas and outdoor play areas by alternative noise attenuation measures where it is not practical to provide a noise barrier or earth mound.		
<p>PO45 Development involving a childcare centre or educational establishment:</p> <ol style="list-style-type: none"> 1. provides a noise barrier or earth mound that is designed, sited and constructed: 2. to achieve the maximum building facade acoustic level in reference table 1 (item 1.2); 3. in accordance with: <ol style="list-style-type: none"> a. Chapter 7 integrated noise barrier design of the Transport Noise Management Code of Practice: Volume 1 (Road Traffic Noise), Department of Transport and Main Roads, 2013; b. Technical Specification-MRTS15 Noise Fences, Transport and Main Roads, 2019; c. Technical Specification-MRTS04 General Earthworks, Transport and Main Roads, 2020; or 4. achieves the maximum building facade acoustic level in reference table 1 (item 1.2) by alternative noise attenuation measures where it is not practical to provide a noise barrier or earth mound. 	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>
<p>PO46 Development involving:</p> <ol style="list-style-type: none"> 1. indoor education areas and indoor play areas; or 2. sleeping rooms in a childcare centre; or 	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
3. patient care areas in a hospital achieves the maximum internal acoustic level in reference table 3 (items 3.2-3.4).		
Above ground floor level requirements (childcare centre, educational establishment, hospital) adjacent to a state-controlled road or type 1 multi-modal corridor		
<p>PO47 Development involving a childcare centre or educational establishment which have balconies, podiums or elevated outdoor play areas predicted to exceed the maximum free field acoustic level in reference table 2 (item 2.3) due to noise from a state-controlled road are provided with:</p> <ol style="list-style-type: none"> 1. a continuous solid gap-free structure or balustrade (excluding gaps required for drainage purposes to comply with the Building Code of Australia); 2. highly acoustically absorbent material treatment for the total area of the soffit above balconies or elevated outdoor play areas. 	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>
<p>PO48 Development including:</p> <ol style="list-style-type: none"> 1. indoor education areas and indoor play areas in a childcare centre or educational establishment; or 2. sleeping rooms in a childcare centre; or 3. patient care areas in a hospital located above ground level, is designed and constructed to achieve the maximum internal acoustic level in reference table 3 (items 3.2-3.4). 	No acceptable outcome is provided.	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>
Air, light and vibration		

Performance outcomes	Acceptable outcomes	Response
<p>PO49 Private open space, outdoor education areas and outdoor play areas are protected from air quality impacts from a state-controlled road.</p>	<p>AO49.1 Each dwelling or unit has access to a private open space which is shielded from a state-controlled road by a building, solid gap-free fence, or other solid gap-free structure.</p> <p>OR</p> <p>AO49.2 Each outdoor education area and outdoor play area is shielded from a state-controlled road by a building, solid gap-free fence, or other solid gap-free structure.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>
<p>PO50 Patient care areas within hospitals are protected from vibration impacts from a state-controlled road or type 1 multi-modal corridor.</p>	<p>AO50.1 Hospitals are designed and constructed to ensure vibration in the patient treatment area does not exceed a vibration dose value of $0.1\text{m/s}^{1.75}$.</p> <p>AND</p> <p>AO50.2 Hospitals are designed and constructed to ensure vibration in the ward of a patient care area does not exceed a vibration dose value of $0.4\text{m/s}^{1.75}$.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>
<p>PO51 Development is designed and sited to ensure light from infrastructure within, and from users of, a state-controlled road or type 1 multi-modal corridor, does not:</p> <ol style="list-style-type: none"> intrude into buildings during night hours (10pm to 6am); create unreasonable disturbance during evening hours (6pm to 10pm). 	<p>No acceptable outcomes are prescribed.</p>	<p>Not Applicable.</p> <p>The proposed change relates to the incorporation of access easements only. No additional uses or change to existing approved uses is proposed as part of the change.</p>

Table 1.6: Development in a future state-controlled road environment

State Development Assessment Provisions v3.2

State code 1: Development in a state-controlled road environment

Performance outcomes	Acceptable outcomes	Response
<p>PO52 Development does not impede delivery of a future state-controlled road.</p>	<p>AO52.1 Development is not located in a future state-controlled road.</p> <p>OR ALL OF THE FOLLOWING APPLY:</p> <p>AO52.2 Development does not involve filling and excavation of, or material changes to, a future state-controlled road.</p> <p>AND</p> <p>AO52.3 The intensification of lots does not occur within a future state-controlled road.</p> <p>AND</p> <p>AO52.4 Development does not result in the landlocking of parcels once a future state-controlled road is delivered.</p>	<p>Not Applicable.</p> <p>The premises is not located in a future State-controlled road environment.</p>
<p>PO53 The location and design of new or changed access does not create a safety hazard for users of a future state-controlled road.</p>	<p>AO53.1 Development does not include new or changed access to a future state-controlled road.</p>	<p>Not Applicable.</p> <p>The premises is not located in a future State-controlled road environment.</p>
<p>PO54 Filling, excavation, building foundations and retaining structures do not undermine, damage or cause subsidence of a future state-controlled road.</p>	<p>No acceptable outcome is prescribed.</p>	<p>Not Applicable.</p> <p>The premises is not located in a future State-controlled road environment.</p>
<p>PO55 Development does not result in a material worsening of stormwater, flooding, overland flow or drainage impacts in a future state-controlled road or road transport infrastructure.</p>	<p>No acceptable outcome is prescribed.</p>	<p>Not Applicable.</p> <p>The premises is not located in a future State-controlled road environment.</p>

Performance outcomes	Acceptable outcomes	Response
<p>PO56 Development ensures that stormwater is lawfully discharged.</p>	<p>AO56.1 Development does not create any new points of discharge to a future state-controlled road.</p> <p>AND</p> <p>AO56.2 Development does not concentrate flows to a future state-controlled road.</p> <p>AND</p> <p>AO56.3 Stormwater run-off is discharged to a lawful point of discharge.</p> <p>AND</p> <p>AO56.4 Development does not worsen the condition of an existing lawful point of discharge to the future state-controlled road.</p>	<p>Not Applicable.</p> <p>The premises is not located in a future State-controlled road environment.</p>
