| Subject: | Town Planning |
| Message: | <p>Hello Council,</p> <p>I was looking a proposed 30 storey tower block beside Coronation Drive (Application A006721031) and wondering why this is being considered when obvious limit is 10 storeys in the area adjacent to the River.</p> <p>The Council could consider ways to decentralise the Town Planning otherwise traffic congestion will continue and no amount extra roads will fix it. There are areas like say around Acacia Ridge that are light industrial and could support Business Precincts.</p> <p>The CBD is a limited space and with the Internet there is no longer any need to drag so many persons each weekday through peak hour traffic into it.</p> <p>Thanks for your help.</p> |
