Subject: Concern re application reference: A006823050

This email originates from outside of Brisbane City Council.

Dear BCC planning department,

We have only today received a copy of the advice for this development from a resident in Trossachs Place.

Being close to but not in Trossachs Place we are surprised to hear of the proposed development of a 35m (height of a 12 floor building) telecommunication tower in this highly wooded area.

We are not opposed to the need for better mobile reception in the area especially with the cessation of support for copper wire telephones and the lack of adequate cable/fibre optic internet in the area (we use star link).

However, we believe people in Lochinvar Rd, Cedar Creek Rd and other residential areas such as Melrose Place should also be letter dropped about this proposal.

We are interested in more information about:

- what is planned
- what options were considered before this proposal was presented
- the networks that will utilise the tower
- the benefits to the community
- the risks to the community and wildlife/environment

We feel that adequate time for consultation has not been given.

Please forward us a copy of the application and allow a further consultation period.

Kind regards
