RE: RESPONSE TO INFORMATION REQUEST FOR A006967903 AT 1408 BEENLEIGH ROAD, KURABY

Real Property Description: Lot 1 RP80326

Council Ref: A006967903

Dear Errin,

Reference is made to the above Development Application and pursuant to the provisions of the Planning Act 2016, please find enclosed:

1. An Electronic copy of the Information Response will be submitted to Brisbane City Council via email and will contain the following: -
 - a. Part 1 – Information Response
 - b. Part 2 – Brisbane City Council's Information Request
 - c. Part 3 – Amended Architectural Plans

2. All requirements within the Brisbane City Council's Information Request have been addressed adequately to justify the proposal at 1408 Beenleigh Road, Kuraby.

Yours Faithfully

RE: RESPONSE TO INFORMATION REQUEST FOR A006967903 AT 1408 BEENLEIGH ROAD, KURABY

Real Property Description: Lot 1 RP80326

Council Ref: A006967903

Dear Errin,

This Information Response is provided to Brisbane City Council's Information Request for the above development application issued on 2 April 2026.

Response to Information Request

Amenity Impacts

- 1) It is noted on the submitted plans that the proposed kitchen is in close proximity to the eastern & northern property boundaries and adjoining dwellings. While it is acknowledged that some of the adjoining dwellings may be under the ownership of the Mosque, Council remains concerned that noise and air emissions from the proposed kitchen may adversely impact the amenity of nearby residences. Further clarification is required to enable a proper assessment.
 - a) Provide further information clarifying the following:
 - i) Confirm the location of the existing kitchen and confirm whether the existing kitchen is proposed to be retained.
 - ii) Confirm the frequency of the kitchen use (including any existing kitchen proposed to be retained) and number of people the kitchen is serving.
 - iii) Confirm the proposed hours of operation for the kitchen, having regard to AO1.1/PO1 of the Community facilities code.
 - iv) Confirm the location of the cooking air extraction exhaust/s and demonstration of compliance with AO3.1(b) of the Community facilities code.
 - v) Identify on the plans the location of all external plant and equipment, including details of acoustic and visual screening in accordance with AO2.1 and AO5 of the Community facilities code.
 - vi) Confirm the current use and intended future use of the adjoining dwellings that are also under the ownership of the Mosque.
 - b) Provided elevations for the proposed kitchen.

Response: Each item is addressed below:

(i) - The existing kitchen is still located in the position identified within the stamped approved plans (adjacent to the new kitchen). This proposal will act like an extension to the existing kitchen and allow for additional food preparation areas.

(ii) – Align sourced comment from the applicant regarding this request. The response was as follows:

- *Use is proposed to occur infrequently, typically in association with scheduled community or religious gatherings.*
- *This will include the cooking for meals to be distributed with our partners such as Merciful Servants at their homeless meal feeding locations. This will range from twice a week to once a month depending on the need.*

As outlined above, the kitchen is not to be used daily, but an exact number of times is unknown. Anticipated to be a few times a week.

(iii) - Align sourced comment from the applicant regarding this request. The response was as follows:

- *Typical use occurs during daytime and early evening periods.*
- *Late-night or overnight operation is not proposed as a regular activity.*
- *Kitchen use is managed so as to minimise noise and disturbance to nearby dwellings*

The applicant has confirmed that the kitchen will operate in accordance with the hours of operation identified in AO1.1 and AO1.2 of the Community Facilities Code.

(iv) – The proposed exhaust would be located approximately 4m from the Dwelling House to the east at 12 Besline Street. As noted, this property and Dwelling is owned by the applicants. The existing development approval is submitted over 12 Besline Street also and therefore should be viewed as part of the Place of Worship use. As such, the residential amenity that is expected for a Dwelling House is not realistic for the Dwelling at 12 Besline Street considering it is part of the original Place of Worship proposal.

The exhaust is located over 6 m from 14 Besline Street to the north.

(v) – The plant equipment is illustrated on the Architectural plans and its possible impact on residential amenity is similar to the response above. The property at 12 Besline Street and the associated Dwelling are part of the overall development application for the Place of Worship, as such, some impact on residential amenity was expected when the development was originally approved.

(vi) - Align sourced comment from the applicant regarding this request. The response was as follows:

- *These dwellings are currently used for residential accommodation*
- *No change to the approved residential use of these dwellings is proposed as part of this application.*
- *Their presence provides an additional buffer and transition between the community facility and other residential uses in the locality.*

No change to the existing use of the Dwellings is proposed.

(b) – Elevations of the proposed kitchen have been included as part of the amended Architectural Package. Refer to Part 3 – Amended Architectural plans.

Recommendations:

All requirements within Brisbane City Council's Information Request have been addressed adequately to justify the subject proposal at 1408 Beenleigh Road, Kuraby. Align recommends that the subject development proposal be approved subject to reasonable and relevant conditions.

Yours Faithfully,

Align Planning

Dear Stephen

RE: Further advice

Council has reviewed the change application and determined that further information is required to fully assess the proposed change.

Amenity Impacts

- 1) It is noted on the submitted plans that the proposed kitchen is in close proximity to the eastern & northern property boundaries and adjoining dwellings. While it is acknowledged that some of the adjoining dwellings may be under the ownership of the Mosque, Council remains concerned that noise and air emissions from the proposed kitchen may adversely impact the amenity of nearby residences. Further clarification is required to enable a proper assessment.
 - a) Provide further information clarifying the following:
 - i) Confirm the location of the existing kitchen and confirm whether the existing kitchen is proposed to be retained.
 - ii) Confirm the frequency of the kitchen use (including any existing kitchen proposed to be retained) and number of people the kitchen is serving.
 - iii) Confirm the proposed hours of operation for the kitchen, having regard to AO1.1/PO1 of the Community facilities code.
 - iv) Confirm the location of the cooking air extraction exhaust/s and demonstration of compliance with AO3.1(b) of the Community facilities code.
 - v) Identify on the plans the location of all external plant and equipment, including details of acoustic and visual screening in accordance with AO2.1 and AO5 of the Community facilities code.
 - vi) Confirm the current use and intended future use of the adjoining dwellings that are also under the ownership of the Mosque.
 - b) Provided elevations for the proposed kitchen.

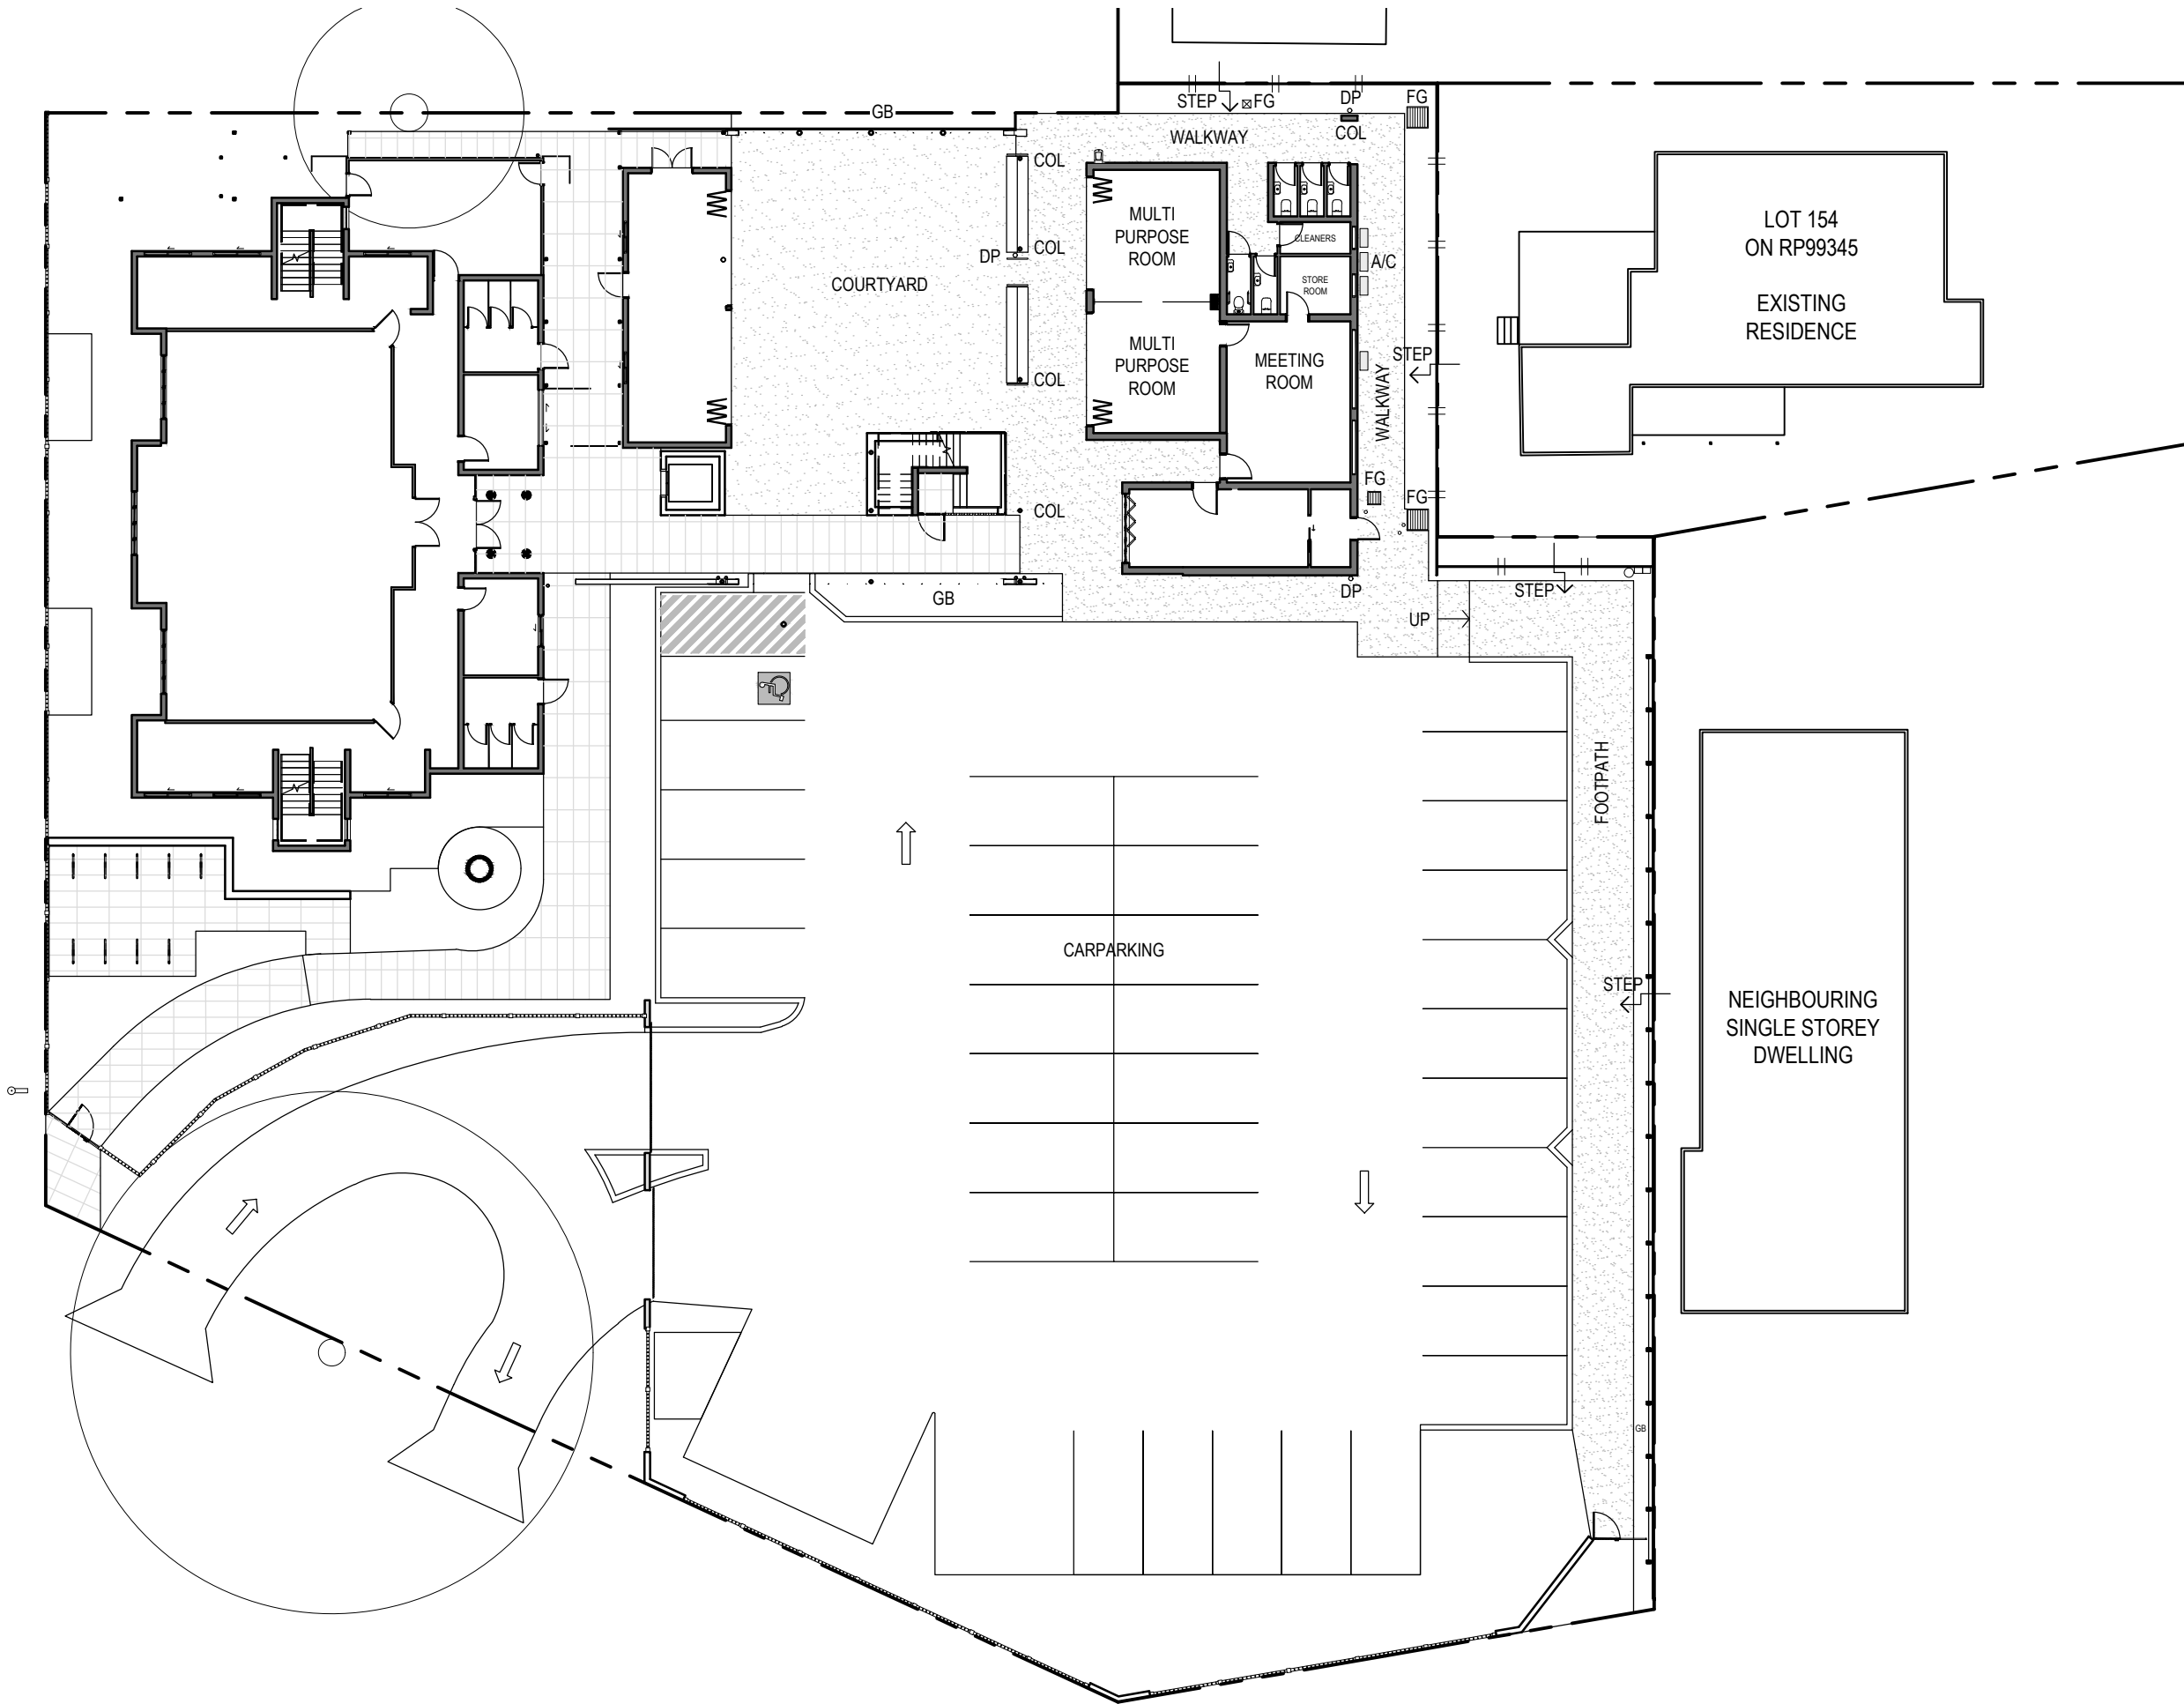

Please phone me on telephone number below during normal business hours if you have any queries regarding this matter.

Yours sincerely
