To whom it may concern,

For over a year we have built a healthy working relationship with A4 Community Care Services. Emmanuel and the team have been instrumental in our operations in providing food parcels for our wider community in the 4300 Area code and the Greater Ipswich region.

With the year that has passed we were able to assist with over 250 families and Solo parents. The food parcels and the service has been a great success with our commitment to continue our partnership with A4 Community Care Services.

The food parcels has provided our community with the confidence they have the ability to have a solution to food insecurity, by being able to feed their families. It also has provided relief and given hope to families doing it tough.

We utilise the delivery service that they offer as we operate fortnightly with the very possibility of going weekly in the very near future. This service has made it very easy for us to serve our community and also provide that relief.

Some of our community have used the Pallara site and are happy with the outcome, and don't mind travelling to the location on our off week.

Our partnership has provided us with the means to be able to have a solution to our food security for our community. We believe in cooperating with organisations to see there visions and purposes fulfilled while meeting our standards of building long lasting relationships with equal minded groups.

We hope you can join us and build.

Best regards,
