Dear Sir/Madam

I am writing to the proposed multiple dwelling for 2-6 Ashmore St Everton Park.  
On L32,L33,L34RP72156

I live on Ashmore St and my concern is that the parking of more cars belonging to residents on the street will be a major problem.  
Most of the dwellings on the street are blocks of units which currently do not provide enough car spaces for residents let alone visitors and tradesmen within the buildings' grounds.  
Therefore many cars are parked on the street. This results in narrowing the throughway for cars moving along the street.

Currently two cars travelling in opposite directions cannot pass without one vehicle having to find a space to park to let the other drive on.

If the street has more cars parked on Ashmore St cars will not be able to drive in both directions.

What does the council propose to do to alleviate this problem if the new development is passed?

1. Make Ashmore Street one way for traffic?
2. Allow parking on only one side of the street.
3. Ensure that the new development has parking for two cars per unit within the parameters of the allotments?

I look forward to hearing about your decision on how to prevent traffic chaos.

yours sincerely
