Dear Sir/Madam,

Affected Entity (Energex) Response Notice
Council Ref: A007086235
Applicant Ref: 60680098
Our Ref: ECM 14645857-42259202

As an Affected Entity to the below referenced Minor Change application the following response is provided in accordance with Section 80 of the *Planning Act 2016*.

Development Details

Applicant	Ampol Refineries (QLD) Pty Ltd
Assessment Manager	Brisbane City Council
Council Application No.	A007086235
Street Address	50 Pritchard Street, 41 & 48 South Street, Lytton
Real Property Description	L1 SP282377, L4 RP852211 & L437 RP104399
Development Type	Minor change to Material Change of Use (Special Industry: Hazardous Chemical Facility) and Operational Work (Filling and Excavation)
Referral Trigger	☐ Schedule 10, Part 9, Division 2, Table 2, Item 1 (10.9.2.2.1) – Material Change of use of premises within 100m of a substation site or subject to an easement for the benefit of a distribution entity under the Electricity Act and the easement is for a supply network ☐ Schedule 10, Part 9, Division 2, Table 3, Item 1 (10.9.2.3.1) - Operational Work on premises subject to an easement for the benefit of a distribution entity under the Electricity Act for a supply network; or part of the lot is within 10m of a substation site
Impacted Electrical Infrastructure	Lytton A Substation, Easement AA on SP203995 – O/H 110kV Feeder/s 3302 & 3303 Easement KX on SP145708, Easement KV on SP145708 – O/H 11kV Feeder LYT1, 33kV Feeder/s 491 & 687

Energex provides the following response to the application in accordance with Section 80(4) of the *Planning Act 2016*.

Component of Development	Advice Agency direction
MCU/ OPW	☒ S80(4)(a)– no objection

Energex's assessment of the Minor Change request has been made relative to the following submitted material.

Table 1			
Plans forming part of this Approval			
<i>Title</i>	<i>Plan No.</i>	<i>Issue</i>	<i>Date</i>
<i>Ampol Oil Refinery, Lytton Future Fuels Project Carpark Reconfiguration</i>	<i>XY21024-02-05- DWG-028</i>	<i>G</i>	<i>1/7/26</i>

Energex's original Referral Response dated 15 February 2023 reference number HBD 7672471 remains relevant to the application.

General Advice:

- Energex's referral response is limited to the management of impacts on electrical infrastructure within its referral jurisdiction and does not assess or confirm electricity supply, network capacity, or connection requirements; proponents must undertake a separate connection enquiry via Energex's Customer Portal to initiate investigations and obtain formal advice and approvals relating to network connections.
- Compliance with the Electrical Safety Act 2002, including any Code of Practice under the Act and the Electrical safety Regulation 2013 including any safety exclusion zones defined in the Regulation is mandatory

Should any doubt exist in maintaining the prescribed clearance to the overhead conductors and electrical infrastructure then the applicant is obliged under the Act to seek advice from Energex.

- Any costs incurred by Energex as a result of the works on the easement are to be met by the property Developer / owner.
- This response does not constitute an approval to commence any works within the easement. Consent to commence works relevant to the conditions of the easement is required. All works on easement (including but not limited to earthworks, drainage and detention basins, road construction, underground and overhead services installation) require detailed submissions, assessment, and consent (or otherwise) by Energex.
- All works proposed to be undertaken in close proximity to overhead or underground electrical lines are to be undertaken in accordance with Energex's Works Practice Manual WP1323. This document refers to various standards, guidelines, calculations, legal requirements, technical details, and other information relevant to working near high voltage infrastructure. A copy of WP1323 can be found online via Energex's document library ([Document library | Energex](#)).
