

FYI

Undertaking scrap metal dismantling operations from City Car Parts located at 387 Progress Road Wacol without abiding environmental and planning conditions required to prevent contamination impacting surrounding public land and neighbouring properties yet council would rather ignore community concerns and allow further pollution with regards to toxic airborne emissions, excessive noise pollution, vermin infestation, visual amenity issues and polluting stormwater runoff into our local creek and properties.

We ask council to proceed with an order to cease operations until approvals have been made.

Regards

Please find attached evidence concerning the unlicensed operations of vehicle wrecking scrap yard business called City Car Parts Pty Ltd at 387 Progress Road Wacol.
Operating without an ERA 62 environmental authority permit
