To whom this may concern

i have some concerns about the development permit for reconfiguring the lot. I've lived her for quite some time and I believe you should not cut down those trees. Here are some reasons. Firstly, there are wild life here such as Koalas, snakes and rats. When i bought this house i was told there was a EPA. When you cut down there homes what are they going to do? run to the nearest houses cause rat infestations and snake bites koalas will not be able to out run your machines causing them to die.

Kind regards
